

Product Specification Sheet

Feedback Collect (Golf) Bundle

The world's first voice-controlled, hands-free golf swing training aid!

Feedback Collect is a completely hands-free training solution that does not require hardware or sensors to be attached to your golf clubs or gloves. Without extra hardware, you have a more authentic golf learning experience.

The **Feedback Collect** Bundle comes with:

- ✓ a flexible tripod to hold the your mobile device at the perfect height to capture full range of motion
- ✓ a Bluetooth device worn on your belt and pairs with our mobile app to collect video on command, and
- ✓ access to our mobile and online **Clubhouses** for swing review and annotations

The **Feedback Collect** Bundle makes video recording a golf swing readily accessible to anyone, anywhere by incorporating voice recognition technology with your mobile device.

Additional Features

- ✓ Voice-controlled, hands-free technology
- ✓ Each practice swing captured as a separate video (no editing required)
- ✓ On-screen overlay ensures correct camera position
- ✓ Replay in slow motion, frame-by-frame, pause, or compare two videos side-by-side
- ✓ Upload video to the online **Feedback Clubhouse**, annotate each swing video with easy-to-use drawing tools and record voice notes about each video
- ✓ Post your video and comments to Facebook and Twitter
